Radiology Technology Program 2022
Application Process

This process is explained via the enrollment support specialists, program support specialist, and health imaging information sessions throughout the year.

1. Apply to Gwinnett Tech
    Transcripts evaluated, pre-requisite requirements determined as listed for RADT curriculum
2. Complete Pre-requisite courses if not already completed and other additional required courses as desired
3. **June 8th** is the deadline every year for Health Imaging Programs
    A. Complete program application packet found online at gwinnetttech.edu. The following should be included with the application as stated on the form:
        1) Transcripts printed from Banner
        2) TEAS scores- student selects which score to submit if taken more than once.
4. Packets are **electronically** turned into the admissions office, specifically to the Health Enrollment Team at the email provided on program application.
5. Once all application packets are received, GPA is confirmed by Admissions office.
6. Packets are reviewed by RADT Program Director who determines rank by assessing the GPA and TEAS scores included in each individual applicant's packet.
7. Scoring is placed on spreadsheet:
    A. GPA- points awarded via scale.
    B. TEAS score- points given according scale.
8. Applicant spreadsheet is assessed and sorted via Excel. Rank is displayed largest total score to the smallest.
9. Program Director notifies the top ranking applicants via Gwinnett Technical College student email that they have made the first round of applicants to the RADT program. There will be more applicants than slots notified because some students have applied to more than one program. Number of accepted applicants can vary yearly but ranges from 25-30. Thirty students per cohort is the maximum.
10. Accepted applicants **MUST** attend mandatory RADT program information meeting as announced in the email. If this meeting is not attended, the applicant's name is removed from the list.
11. Students will be informed of their ranking so they may make a decision on which program they wish to enter. Alternates will be informed of their status.
11. **TBD** is the deadline for applicants to inform RADT Program Director via email if they accept their invitation into the RADT program. (This is the deadline for all Health Imaging Programs.)

12. If any selected students decline entry into the program, the program director uses the alternate list. These applicants have until **TBD** to inform the program director of their decision. This process can continue for a few days as alternates may have accepted slots into other programs.

This form is updated in March of every year so the dates will change.
