How to Create a GAfutures Account Profile as an Education Professional for the Dual Enrollment funding Program and Application

The Georgia Home Study Program parent/guardian must create a GAfutures Education Professional account profile, for the name of the Georgia Home Study Program to receive an assigned HSP#, prior to the student completing the annual online Dual Enrollment funding application.

1. On the GAfutures.org website, click on the "Create an Account" button at the top of the home page. Select the Education Professional group as indicated below. Professionals are not required to provide SSN and DOB.

2. Select the option	n which best descri	bes your Georgia	Home Study F	Program.				
Fields marked with * are requ	ired. est describes you *						•	
○ I work at a Georgia High Schoo ○ I am a Georgia Home Study Of	ol OI am a Georgia District A	dministrator O I work at a C	Georgia College or Univ Idy Official of an Unacc	ersity redited Program				

Security Question 1 *

Accredited Georgia Home Study Programs must be accredited by one of the accrediting agencies listed in the menu options. If a specific agency is not listed, for state of Georgia scholarship and grant purposes, your Georgia Home Study Program is considered unaccredited.

3. Enter your unique home study program name. Each Georgia Home Study Program is unique in that only the person who created the GAfutures account will have access to student(s) Dual Enrollment applications when the student selects the specific Georgia Home Study Program.

Georgia Home Study Name - (GSFC Assigned GAfutures Number) (ZIP) *	Select Accrediting Agency *
Select v	None
☑ My home study program is not listed.	
	New Home Study Program Name *
	ENTER HOME STUDY PROGRAM NAME

4. Upon successfully creating a GAfutures Education Professional account and unique Georgia Home Study Program name, you will receive an email with an assigned GAfutures HSP# for your Georgia Home Study Program name. Provide your Georgia Home Study Program name and assigned HSP# to your student.

Student Application

Your student is now ready to complete the online Dual Enrollment funding Application for the 2020 – 2021 school year (includes Summer term 2020, Fall term 2020, Winter Term 2021 and Spring term 2021).

Your student must sign in to their GAfutures account. In their profile they must select the Georgia Home Study Program name with the HSP#, that you created, from the drop-down menu (if an application has not already been completed).

Home Study Dashboard - tracking the status of the applications submitted by your student

Once your student has completed the online funding application, sign in to your GAfutures Georgia Home Study Program account to access High School Functions (HSF) and the Dual Enrollment Dashboard.

The Dashboard allows you to view and access individual student applications to process and add course(s) selections.

Single View – processing applications for your student

Scheduled for Release May 18th

The "Single View," will be utilized to process individual student applications with approved courses. The postsecondary institution (PSI) will then choose the college equivalency for each high school course.

Visit the Resources section for documentation pertaining to the Dual Enrollment funding Program.
