5.1.14 GT Technical Education Guarantee

The Technical College System of Georgia has developed curriculum standards with the direct involvement of business and industry. These standards serve as the industry-validated specifications for each occupational program. These standards allow Georgia’s technical colleges to offer their business partners the following guarantee:

“If one of our graduates who was educated under a standard program and his/her employer agree that the employee is deficient in one or more competencies as defined in the standards, the technical college will retrain that employee at no instructional cost to employee or employer.”

This guarantee applies to all Gwinnett Tech graduates who are employed in their field of training and is in effect for a period of two years after graduation.
